

## First week of Chewie

1-May

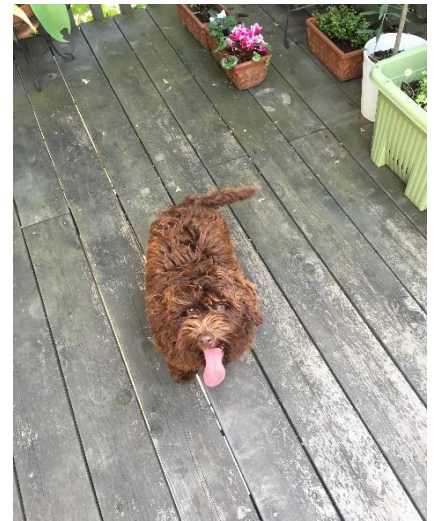

Chewie arrived at Narita airport on May 1, 2015. He has traveled all the way from Launceston, Tasmania, its an adventure!

In the morning, we headed to the airport, takes us about 1:30 hour driving from where we live.

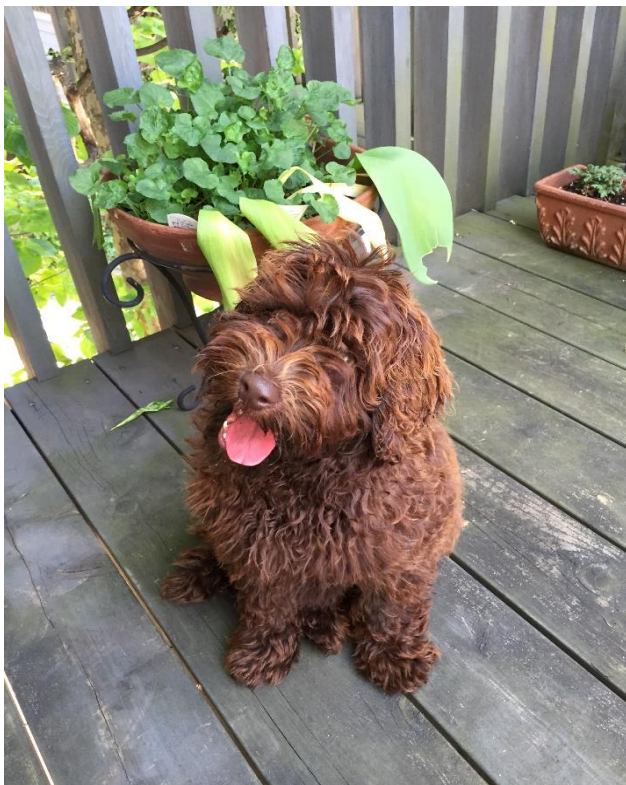

Hello Chewie, welcome to Japan.  
Welcome to our family.

Jal cargo, where Qantas cargos are received including animals.

At home, I am glad to see hime so relaxed.

2-May

We took Chewie to our local vet and had him healthchecked. Weight is 5.6kg, and he is healthy.

At night. A new bed is introduced. Our son Yuki was showing how to use the bed. (it looks like a pillow though)

Next day. Chewie is sleeping using his bed (yet as a pillow).

Next day. He finally use it as a bed! Good boy Chewie! But now, he needs a pillow.

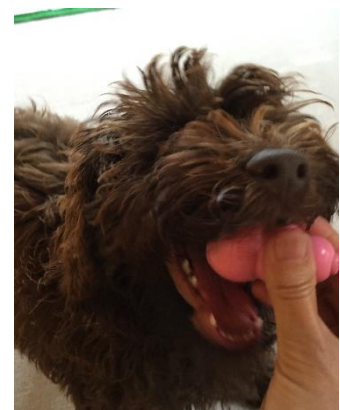

3-May

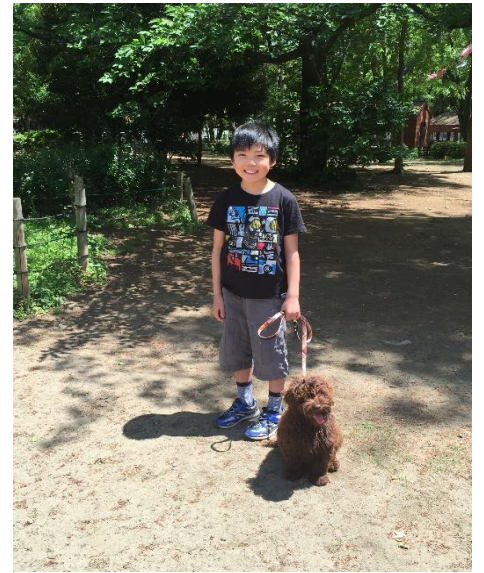

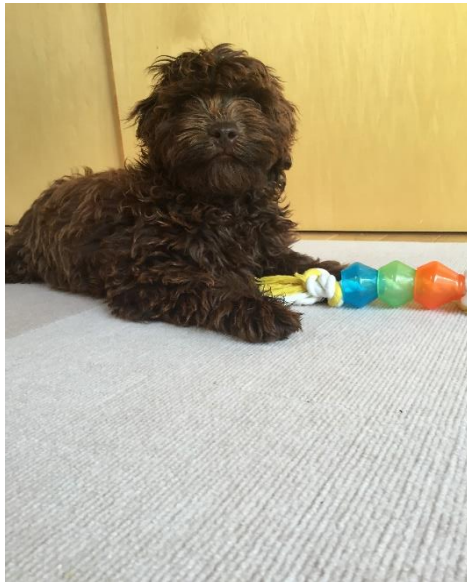

Are there any friends?

Chewie found someone else is on the other side (on TV screen, himself). He was so excited to meet friends. He was so cute.

I love to bite!

4-May

In the park.

9-May

I took him to our vet for the second time for his final shot. He weighs 6.0.
